

Nick Socha

[Milwaukee, WI](#) • [Email](#) • (414) 502-8108 • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

Hello, I'm Nick Socha. I am a self-taught front-end developer with over 1 year of experience from online courses and personal projects. My primary focus has been on writing clean and efficient HTML, CSS, and JavaScript. Lifelong learner, passionate about technology, and seeking freelance work or a front-end development role.

SKILLS

Development skills: HTML, CSS, Sass, BEM, JavaScript, Bootstrap, Git / GitHub, JAMStack, React, WordPress.

IT skills: Imaging, configuring, installing / replacing, and administering Windows 7-10 desktop / laptops (Dell, HP, Lenovo). Troubleshooting: applications, BYOD, hardware, software, VoIP phones, printer, VPN, and network issues. Creating and maintaining knowledge base articles, performing inventory staging and asset management responsibilities. I am well versed in Bomgar, Citrix, Epic, G Suite, Kronos, LANDesk, Office 2010 - Office 365, SCCM, Service Now, SharePoint, and Skype.

PROJECTS

[NICKSOCHA.COM](#)

- Portfolio site of Nick Socha to house all my personal projects. Built with vanilla HTML, CSS, and JavaScript.

[NICKSOCHA.DEV](#)

- NickSocha.dev is a WordPress website I built for people who are interested in working together on building them a WordPress website.

[PODCASTLI.COM](#)

- Podcastli.com is a website I built that you can upload the subscriptions file you export from your favorite podcast app to get a list of your podcasts.

[SOCHA.ME](#)

- Socha.me is a website I built in vanilla HTML, CSS, and JavaScript as a CV / Resume site to showcase my experience.

EXPERIENCE

Front-end Web Developer, [NickSocha.com](#) - Milwaukee, WI Apr 2019 - Present

- Design, prototype, and implement scalable, reliable, and maintainable websites using HTML, CSS, and JavaScript based technologies.

Senior Desktop Support Technician, [Ascension Technologies](#) - Glendale, WI Sep 2016 - Present

- Member of a ~20 technician team at one of the US's largest healthcare organizations supporting nine major facilities and 10+ clinics in Wisconsin with ~7,000 users and ~11,000 devices.
- Providing tier 2 infrastructure and software support in desktop hardware and network environments through collaboration with the helpdesk, applications teams, vendors, and other IS associates.
- Ensure industry standard compliance while completing end to end installs, moves, and projects.

Deployment Technician, [Paragon Development Systems \(PDS\)](#) - Oconomowoc, WI May 2015 - Sep 2016

- Assigned to Ascension's desktop refresh project, working on a team of six covering multiple sites.
- Replaced computers and peripherals, performed testing and troubleshooting to ensure full functionality.
- Maintained product inventories.

QA Tester/Desktop Specialist, [Kohl's Corporate Support Center](#) - Menomonee Falls, WI Feb 2015 - May 2015

- Initially hired for desktop imaging and customer support and promoted within four months.
- Performed defect discovery and troubleshooting of digital price tags, testing 400+ tags to meet daily goals.
- Effectively documented issues discovered during testing. Coacted with project management to resolve issues.
